I. Scope of work:

1. Above amount is inclusive of transportation, lodging and boarding during the survey.
2. Survey work to be carried out by Differential GPS and Total Station to match the prevailing specification & accuracy required by Airport Authority of India. The coordinates are to be WGS – 84 Coordinates with accuracy requirement of 1/ 10th of a second in the DD MM SS.ss format with position accuracy within 3 meters.
3. The elevation of the surveyed coordinates should be in AMSL or EGM08 model as per the AAI requirement for the concerned airports. Accuracy requirement for the site elevation should be 0.5 meters.
4. Any change in AAI requirement related with the accuracy, specification and format of the survey report during the NOC assessment process, shall be incorporated in the survey work without any rate revision and revised survey reports should be issued.
5. Identification of the survey no./ Gat no., village, taluka & District of the WTG location.
6. Submission of Survey report in AAI format, Survey/ gat identification report & copy of RTC (Pahani).
7. List of Locations to be surveyed site wise :

A). Kurudagi site:
